Professional Experience Summary

1. Accenture, 05/2011-07/2016:

- **BCM Lead** – Responsible for strategy, team management and creation/maintenance of Business Continuity plans for all project in Brazil, with over 230 instances. Author of a new model (with Lean approach) that is currently being evaluated for the entire EALA scope (Europe, Africa and Latin America). Responsible for the 100% coverage index reached on July 1st 2016 for BCPs in Brazil, a result that was never achieved by the company before.
- **Health & Public Services Support Lead** – Initially acting as ScrumMaster, and then as Product Owner and team lead for the Agile cell that enabled processes continuous improvement for all the industry's projects in Brazil.
- **ITSM Consultant and Project Lead** – Execution of the first and second phases of the global ITSM Implementation for Vale (biggest mining company in Brazil), named Vale Support Center, with BMC-Remedy technology. Responsible from both Foundation Data and Configuration Management Database work cells, working in both leadership for activities and direct execution for the setup.
- **Quality, Methodology and Processes Specialist** – Software Quality Assurance team lead in the Brazilian cell responsible for CMMI based practices. Work performed with Vale, Fleury, B2W clients directly.
- **BW/MDM Onsite Lead** – Acted as liaison between Accenture's operation and Vale's Production management teams for SAP BW and MDM Modules. Responsible for communication, prioritization and conflict resolution for all stakeholders leaderships involved (external suppliers, consulting, operation, client, internal management).
- **B.I. Senior Analyst** – Responsible for development, validation and follow up, for multiple Business Intelligent Databases on Accenture's client: Vale, using Informatica Power Center technology.

2. NetPartners, 04/2010-04/2011:

- **Technical Lead and B.I. Functional Consultant** – Functional specialist, about Vale's corporate environment and business applications. Acted as main Analyst in the Account/Control B.I. Project for the client, and processes enabler, as liaison between multiple suppliers. Responsible from best practices application regarding Oracle B.I. Database technology.

3. CPM Braxis (Capgemini), 01/2008-12/2009:

- **EBS Oracle Consultant** – Operation and continuous improvement development for ELO – Oracle ERP implementation in Vale. Acted as Functional Analyst for the General Ledger module, working on public interfaces creation, integration, data extraction, customization and change management.

4. Stefanini IT Solutions, 10/2005-12/2007:

- **B.I. Consultant** – Maintenance and development for Vale's first B.I. Database (BDGE – Economic Management DB). Performed functional analysis, operation, PL/SQL development, application tuning, with Oracle Technology. Executed roll-out for 12 companies in the business group, and improved Assets and Budget bases.

5. Sysdesign Consulting, 06/2000-09/2005:

- **B.I. Project Leader**, on following clients:
 - **Bahia's State Administration Bureau**, DW over Asset base, enabling several millions saving on assets relocation, instead of new acquisitions.
 - **EMBASA**, datamarts and DW over financial, operational and commercial bases, support over 100 KPI's, enabling the company's strategic planning.
- **Processes Analyst**, for Conder-BA state.
- **B.I. Analyst** for Politeo-BA State, Carlos Lyra Group-AL State, Bahia's State Education Bureau.

6. Unitech, in 2004 as:

- **B.I. Specialist** – Best Practices Consultant, Oracle B.I. Technology for SEFAZ – MG State
